Examiner:

For: ATTACHMENT STRUCTURE FOR MOTOR FOR TOY, TOY WITH THE ATTACHMENT STRUCTURE, AND RACING CAR TOY

PRELIMINARY AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Before examination of the above-identified application, please amend the application as follows:

IN THE CLAIMS:

Please AMEND the following claims, CANCEL claims 3 and 11 without prejudice or disclaimer, and ADD new claims 14-34 as follows:

1. (ONCE AMENDED) An attachment structure of a motor of a toy, to set a motor in a motor containing part provided in a base body of the toy, the attachment structure comprising:
a motor holding plate to swing on a predetermined rotational shaft attached to the base body, the motor holding plate to take an open position to open the motor containing part and a closed position to close the motor containing part by the swing, the motor holding plate holding a body part of the motor set in the motor containing part at the closed position, and the motor holding plate comprising an engaging portion which engages an engage portion provided on the base body when the motor holding plate is disposed at the closed position, wherein the motor holding plate also serves as a radiation plate.
